Annexure E

Significant Accounting Policies

1. Basis of accounting

The Trust is a charitable organisation and is not engaged in any commercial, industrial or business activity. The financial statements of the Trust are prepared under the historical cost convention and are on accrual basis.

2. Use of Estimates

The preparation of financial statements in conformity with Indian GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates. Any revision to accounting estimates is recognised prospectively in current and future periods. Contingencies are recorded when it is probable that a liability will be incurred, and the amount can be reasonably estimated.

3. Fixed assets and depreciation

Tangible fixed assets are stated at written down values i.e. cost of acquisition less accumulated depreciation. Cost of acquisition of fixed assets includes all direct expenses relating to acquisition and installation/erection of the assets. Depreciation is calculated using written down value method, at base rates specified in New Appendix 1 to the Income Tax Rules, 1962. Depreciation are charged for the whole of the accounting year if the asset is put to use for a period of 180 days or more and at half the rates prescribed if the asset is put to use for a period less than 180 days. However, if in the assessment of the Trust an accelerated depreciation is justified, having regard to the nature of the assets and its estimated balance useful life, an appropriate higher rate is applied. No depreciation is charged in the year of deletion.

4. Donations and grants

Donations are recognised as income in the Income and Expenditure Account in the period in which the ultimate collections are reasonably be expected. Generally, this does not happen prior to receipt of the amount. Earmarked donations and grants are initially credited to a liability account in the Balance Sheet and are transferred to Income and Expenditure Account in the year in which and to the extent to which the trust complies with the conditions attached to them.

5. Corpus fund

Corpus fund relates to funds contributed by the Donors and donation received with the direction to be included as a part of the Corpus.

6. Employee Benefits

Short Term Plan

The undiscounted amount of short-term employee benefits expected to be paid in exchange for the services rendered by employees are recognised during the year when the employees render the service.

Long Term Plan

Defined Benefit plan:

a). For defined benefit plans, the cost of providing benefits is determined using the Projected Unit Credit method, with actuarial valuations being carried out at each balance sheet date. Actuarial gains and losses are recognised in the Statement of Income and Expenditure in the period in which they occur. Past service cost is recognised immediately to the extent that the benefits are already vested and otherwise is amortised on a straight-line basis over the average period until the benefits become vested.

b). Provident fund and Employee State Insurance are defined contribution schemes and the trust has no further obligation beyond the contributions made to the fund. Contributions are charged to income and expenditure account in the year in which it is due.

7. Foreign currency transactions and translations

Foreign currency receipts on account of donations and grants are translated at spot rates prevailing at the time of receipt into the designated accounts of the Trust. Foreign currency expenditure is recorded using the spot rates prevailing on the date of transaction as per Foreign Inward Remittance Certificate (FIRC) document.

Foreign currency monetary items of the Trust, outstanding at the balance sheet date are restated at the year-end rates. Non-monetary items of the Trust are carried at historical cost.

Exchange differences arising on settlement/restatement of short-term foreign currency monetary assets and liabilities of the Trust are recognised as income or expense in the Statement of Income and Expenditure.

8. Income Tax

The Trust is registered as a charitable trust under section 12AA of the Income Tax Act, 1961, which entitles it to full exemption from income tax provided certain conditions laid down in that Act are complied with. Provision for income tax would be made only in the year in which the Trust is uncertain of being able to fulfil these conditions

9. Other Receipts

Other receipts include the reimbursement of expenses incurred by the Trust on various programmes which are recognised on receipt on grounds of prudence.

Interest income is recognised on a time proportion basis taking into account the outstanding amount and applicable rate.

10. Cash and bank balances

Cash and bank balances for the purpose of balance sheet comprise cash at bank and on hand and investment in fixed deposits with the banks with a maturity period of three months or less from the date of acquisition.

11. Provisions and contingencies

A provision is recognised when the Trust has a present obligation as a result of a past event, when it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and reliable estimate can be made of the amount of the obligation. A contingent liability is recognised where there is a possible obligation or a present obligation that may, but probably will not, require an outflow of resources.

12. Leases

Operating Lease

Leases where the lessor effectively retains substantially all the risks and benefits of ownership of the leased asset are classified as operating leases. Operating lease charges are recognised as an expense in the Income and Expenditure Account on a straight-line basis over the lease term.

Pratham Mumbai Education Initiative

Summary of significant accounting policies and notes to the accounts for the year ended 31 March 2020

Annexure F

Notes to accounts

- a. Trust has an outstanding balances of certain unadjusted TDS receivable in the books for which refunds has been received in other bank account. Management is in the process of deciding the course of action to apply to Ministry of Home Affairs for adjustment of the aforesaid balances.
- b. Spread of COVID-19 has affected the economic activity across the Globe, including India. Government of India has taken significant measures to curb the spread of the infection including imposing mandatory lockdowns and restrictions in activities. The governing body of the Trust believes that it has taken into account all the possible impacts of known events arising from the COVID-19 pandemic on the financial statements including its assessment of the Trust's liquidity and recoverable value of its assets. However, given the uncertainties in the economic environment, the management's impact assessment is subject to significant estimation uncertainties, and accordingly, the actual results in future may be different from those estimated as at the date of approval of these financial statements. The Trust will continue to monitor any material changes to the future economic conditions and consequential impact on its functions.
